

## Natures World Maasdijk

|             |                                                                                                                                                                                                                                |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description | Commissioned by De Vries en Verburg, we realize the construction for Natures World. The hull consists of columns, beams and walls in various sizes. In addition to engineering, we also take care of the assembly of the hull. |
| Contractor  | De Vries en Verburg                                                                                                                                                                                                            |
| Revenue     | € 2.400.000                                                                                                                                                                                                                    |
